ENGLISH

The Danube rushes forcefully through the steep rocks, and its silver waves obscure the dangerous shallows. After the last bend of the Weltenburg Narrows lies, picturesque on the wide bank, the world-famous Benedictine Abbey with its Asam Church and the oldest monastery brewery in the world.

In the morning, the church bell rings for early prayers. The morning sun sends its first rays, flooding the abbey with bright light and causing the chest of the dragon slayer in the church to glow bright red with the Benedictine paw cross - long the trademark for Weltenburg.

Now the work of the brewmaster has long begun. The steaming wort from the brewing kettle fills the morning air with aroma and awakens the desire for the noble Weltenburger beer, which is as unique as the landscape where it is brewed!

Weltenburger through and through!
